Mark,

ATSDR derived the number and EPA stated we support it. .

I can provide contact info for ATSDR...

Do you have Dennis's contact info?

Thanks,
Mark

Hi Mark. To my knowledge, ERT was not involved in the emergency response. USEPA Region III office was contacted by WVDEP and were involved in a support function within the response. The contact for EPA is Dennis Matlock.

Out of curiosity, I tried to find some tox info on the MCHM. Not much out there. What was the number you generated as a result of your exercise (again, curiosity)?

Happy New Year

David/Marc,

As an exercise

Ex. 5 - Deliberative

Ex. 5 - Deliberative

He asked whether the

USEPA was asked to develop a drinking water value - I was thinking it would have probably gone to ERT.
Was there any inquiry from WVa?

I know the ATSDR/CDC derived a 1 mg/L value based on a single acute rat LD50.

Thanks,
Mark
